

PETROLEUM FUND QUARTERLY REPORT

Quarter ended 30 September 2011

PRESS RELEASE

The Banco Central de Timor – Leste today released the Quarterly Report ended 30 September 2011 of the Petroleum Fund of Timor-Leste showing that the Capital of the fund as of 30 September was \$ 8, 903.14 million compared to \$ 8,305.80 million at the end of June 2011.

The report shows that the gross capital inflows during the quarter were \$ 805.85 million, consisting of \$ 323.1 million as contributions of taxpayers to the Fund and royalty contributions from the NPA (National Petroleum Authority) of \$ 482.5 million.

The net investment income of the Fund was \$42.77 million of which the coupon and interest received was \$61.63 million and the change in the market valuation of its financial assets was -\$18,86 million. This resulted in a portfolio return of the Fund for the quarter of 0.52%, while the benchmark return for the period was 0.44%. The portfolio return was 0.08% above the benchmark return.

The Petroleum Fund law specifies that the Banco Central de Timor-Leste, is the agent responsible for the operational management of the Fund. The Ministry of Finance is responsible for setting the overall investment strategy for the Fund.

The mandate given to the Banco Cental de Timor-Leste has not changed, namely to manage the fund closely to the Merrill Lynch 0-5 years US Government Bond Index, while the mandate given to the BIS is to manage a diversified bond portfolio in an active manner with the objective of outperforming the benchmark while maintaining an ex-ante tracking error within 100 basis points.

The mandate given to Schroders is to manage the portfolio in an enhanced passive indexing style and maintained within a tracking error relative to the benchmark that does not normally exceed 100 basis points, and with load differences maintained within 0.5% (security level) and 2.5% (country and sector levels). At no time shall the ex-ante tracking error exceed 150 basis points.
